

DETAILS AND MATERIALS

NATURAL WOOD ELEMENTS

CUSTOM-BUILT DETAILS

Every detail of Splendor Living has been crafted with care and precision — from the stone under your feet to the custom finishes in every room. Our commitment to quality begins with locally sourced natural stone, hand-shaped by skilled stoneworkers and integrated directly into the facades of each building. These unique surfaces not only reflect the surrounding landscape, but also ensure long-term durability and timeless character.

CENTRALISED CLIMA CONTROL

NATURAL STONE FACADES

SUSTAINABLE CONSTRUCTION

The architectural language of Splendor Living speaks through its facades. Each of the four buildings is wrapped in a natural stone envelope, giving every residence a distinct identity that blends with the coastal terrain. The use of on-site excavated stone not only reduces environmental impact but connects the development to the land it stands on.
